
Application for Sports Field Customer Classification

This completed application (both sides) and the required information listed below must be submitted to Centennial Water & Sanitation District in its entirety before classification as a sports field will be granted.

Guidelines for classification as a Sports Field Customer

A sports field is defined as an area of turfgrass used and managed for organized sporting events. Centennial Water & Sanitation District recognizes that sports fields experience activity outside of our normal irrigation season of April 15 to October 15. These activities may require supplemental irrigation water in order to keep fields in good condition and safe for sports activities. Classification as a Sports Field Customer will provide the customer with an annual irrigation budget rather than a defined budget for each monthly billing cycle. Sports Field Customers will be allotted 27 inches of supplemental irrigation beginning with the billing period starting on or near January 15 of each calendar year.

It is the customer's responsibility to know how much water is being applied throughout the year. Once the irrigation budget is exceeded, all water used will be billed for at the higher rate tiers according to our rates for Non-residential Irrigation Customers.

If a Sports Field Customer has more than one account that can be classified as a Sports Field, the customer has the option of combining those accounts into one account. The total irrigated area from all accounts will be combined and used to calculate an aggregate budget for that customer.

Please provide the following information:

Property/Business Name:

Property Owner/Responsible Party:

Business Address:

Mailing Address:

Phone: _____

Fax: _____

Email Address: _____

Customer Number: _____

I verify that the maintenance contractor shall operate the irrigation system for this property in accordance with Centennial Water & Sanitation District Conservation Program. I agree that the enclosed information is complete and accurate. I understand that charges for non-compliance may be incurred against the designated utility account for the property, and are subject to the regulations identified in the Centennial Water & Sanitation District, including, but not limited to Exhibit A and A-1.

Signature: _____

Date: _____

Please provide the following information:

Total Irrigated Area (sq. ft.): _____ Sports Field Irrigated Area (sq. ft.): _____

Types of Sporting Events Hosted: _____

Date Sporting Events Begin: _____ Estimated Number of Days of Sporting Events: _____

Meter #1	Square Feet	Estimated Annual Irrigation Water Use		
		Depth (in.)		Volume (gal.)
Sports Field Area(s)			Total Area (ft ²) X Irrigation Depth X 0.623	
Other Turf Areas				
Shrub Beds

Totals				

Your annual water budget will be calculated as follows:

Total Irrigated Area X 27 (in.) X 0.623 = Water Budget (rounded up to nearest 1,000 gallons)

The total estimated water use from the above chart(s) should be less than or equal to your water budget to avoid paying for water at higher tiered rates.
