

CENTENNIAL
WATER AND SANITATION DISTRICT

FOR IMMEDIATE RELEASE

July 8, 2016

FOR MORE INFORMATION:

Sherry Eppers, 720-240-4908

Zone 4C Pump Station & Pipeline to be presented at open house

As an essential component of the community's water delivery system, Centennial Water & Sanitation District will be building a new potable water pump station and pipeline in the undeveloped area east of South Broadway and north of Wildcat Reserve Parkway. The pump station will be located along South Broadway, just north of Wildcat Reserve Parkway. Construction of the project is scheduled to begin this winter.

In an effort to provide information about this project, Centennial Water will host an open house Thursday, July 21, from 6 to 8 p.m. at the Highlands Ranch Mansion. The public is invited to attend. For more information and updates about the project, please visit www.centennialwater.org.

###

Centennial Water & Sanitation District is the water and wastewater utility in Highlands Ranch. Centennial Water provides high quality water through the Joseph B. Blake Water Treatment Plant located in Highlands Ranch. Wastewater is treated at the Marcy Gulch Wastewater Treatment Plant to meet stringent water quality standards before it is discharged.

Over the past 35 years, Centennial Water has built a reliable and highly-respected water portfolio, based on a conjunctive use system, to serve its customers. Its major water source is surface water from the South Platte River, supplemented with groundwater from deep aquifer wells throughout Highlands Ranch. For more information about Centennial Water & Sanitation District, which serves Highlands Ranch, please visit www.centennialwater.org, or call 303-791-0430.
