

CENTENNIAL
WATER AND SANITATION DISTRICT

Position Announcement Engineering Intern

Centennial Water & Sanitation District is currently accepting applications for a Seasonal Engineering Intern position. Successful applicant must have a strong desire to work as a team player in our Public Works Department.

These are seasonal positions working 40 hours per week from May through September.

Responsibilities will include providing support to the Public Works Department, assisting with special projects, data entry, data compilation, and analysis for ongoing contract work or projects.

Candidate must possess excellent verbal and written communications skills. Knowledge of computers, electronic data processing; as well as spreadsheet, database and engineering software applications are necessary. High school diploma or GED equivalent is required. Colorado driver's license and acceptable Motor Vehicle Record are required. Candidates who are enrolled in an engineering trade or program at a college level are preferred.

Pre-employment drug screening and background checks, including driving record, will be conducted.
