**Centennial Water invites you to plant a new perspective with Garden In A Box**

Centennial Water and Sanitation District staff want to help customers transform their landscape with Garden In A Box. This spring, keep a promise to yourself to finally get your yard in shape and let Centennial Water take the guesswork out of the planting. With just a click, you can order a xeric (low-water) garden kit that's ready to pick up and plant in May.

These professionally designed gardens are tailored to Colorado soil and come with a simple plant-by-number map to guide you in the planting process. With Garden In A Box you'll be on the fast track to a water-wise garden in no time and your blooms will be the envy of the neighborhood for years to come.

Best of all, Garden In A Box makes it super easy to save. Each garden kit can help conserve around 1,000 gallons of water compared to a traditional grass lawn. Plus, there's the extra time you save now that you're spending less time watering, mowing and weeding your lawn.

Starting at just \$110, there's a Garden In A Box to fit your budget. Centennial Water, in partnership with Resource Central, is offering a limited number of \$25 discounts to customers to encourage water conservation. The garden kits sell out quickly, so visit [ResourceCentral.org/Gardens](http://ResourceCentral.org/Gardens) today and spend time enjoying your yard this summer.

Resource Central is hosting a pick-up location in Highlands Ranch. Gardens can be picked up Thursday, May 30 at Shea Stadium at Redstone Park between 4 and 7 p.m.

To view the full garden collection and order your Garden In A Box, visit [ResourceCentral.org/Gardens](http://ResourceCentral.org/Gardens). For more information, call 303-791-0430.

###

*Centennial Water & Sanitation District is the water and wastewater utility in Highlands Ranch. Centennial Water provides high quality water through the Joseph B. Blake Water Treatment Plant located in Highlands Ranch. Wastewater is treated at the Marcy Gulch Wastewater Treatment Plant to meet stringent water quality standards before it is discharged. Since 1981, Centennial Water has built a reliable and highly-respected water portfolio, based on a conjunctive use system, to serve its customers. Its major water source is surface water from the South Platte River, supplemented with groundwater from deep aquifer wells throughout Highlands Ranch. For more information about Centennial Water & Sanitation District, which serves Highlands Ranch, please visit [www.centennialwater.org](http://www.centennialwater.org), or call 303-791-0430.*
