

## SUPERINTENDENT OF FIELD OPERATIONS

Centennial Water and Sanitation District, serving over 100,000 customers in the community of Highlands Ranch, CO and adjoining portions of northern Douglas County, is seeking an experienced Superintendent of Field Operations. Centennial operates a complete water and wastewater utility including surface-water reservoirs, treatment, transmission, distribution, storage, and wastewater collection.

Water supply is provided primarily with surface water along with conjunctive use from over 50 Denver Basin wells, and a proven aquifer storage and recovery system. The District has extensive surface and groundwater resources, and is a member of the South Metro Water Supply Authority and the South Metro WISE Authority.

### Primary Responsibilities

- Works under the supervision of the Director of Water and Wastewater Operations; assists with planning and goal setting; recommends policies; and implements programs to ensure compliance with applicable state and federal laws and regulations.
- Supervises collection and distribution and metering staff, either directly or through subordinates; performs employee evaluations; reviews staff workloads; assigns work; and provides employee coaching to enhance job performance.
- Develops operations/maintenance and capital budgets; and monitors expenditures while ensuring compliance with District policies, procedures, and quality standards.
- Reviews and comments on engineering reports, plans, and specifications; stays abreast of applicable regulatory requirements, including backflow prevention and safety; ensures work is performed in accordance with District safety policies and procedures; and oversees and inspects the work of contractors.
- Recommends improvements to existing facilities, equipment and operating systems; and provides technical support for special projects in terms of planning, site preparation, staffing, and site clean-up.

### Desired Qualifications

- High school diploma or equivalent. Bachelor of Science degree in science, engineering, or a related field is desirable.
- Minimum of five years experience in the operation and maintenance of water distribution and/or wastewater collection systems, and at least three years of supervisory experience.
- Knowledge and experience with water and wastewater pumping systems and wells is desirable.
- Class 4 water distribution and Class 4 wastewater collection certifications are preferred.

A valid Colorado drivers license and acceptable motor vehicle record are required.

Pre-employment screening, which includes background check, drug screen and motor vehicle record check will be performed for all candidates who are offered employment.

Starting annual salary range is \$82,056 - \$102,564. Excellent benefits, which include health insurance, paid time off and retirement savings options are included.
